Subject: Proposal to establishment a diplomatic relations between Republic of Congo and Haiti

Your Excellency,

Congratulations to the current government of Republic of Congo for the hard work that has impacted the whole continent of Africa, the African diaspora and all the children of African descent. I am writing this letter on behalf of Parti National de la Justice and the people of Haiti, to formally propose the establishment of diplomatic relations with the Republic of Congo. Establishing formal ties would serve the mutual interests of the nations sovereignty fostering greater understanding and cooperation between the peoples.

Parti National de la Justice is a Political Party with a mission to lead Haiti to freedom and regain our sovereignty as a Nation. As the First free country from Slavery in 1804. Haiti has been

ambushed by the imperial system, as if it was punished for the works of our ancestors. PNDJ has the potential to replace the current government therefore, we are working diligently to bring major change to Haiti.

For over two hundred years Haiti has been ambushed to change our constitution and adapt to a political system which is a condition for Haiti to fail. We are living the results of the different events that took place in Haiti. The Last President Jovenel Moise tried his best to open our eyes and speak up, he was assassinated in his home on July 7th, 2021. A date we could never forget. The country has been out of control since. The Transitional Presidential Counsel of (9) members was established to guide Haiti through the period of transition. Restore order, hold elections, and address the country's humanitarian crisis. Although Alex Didier Fils Aime was appointed as an Interim Prime Minister. It is unfortunate that the Politicians in power cannot render the services needed for Haiti to have peace so they can meet their goal. So, Haiti can have a legal election.

PNDJ Parti National de la Justice represents Justice for the country and the nation. We were originally an Empire, and we had a constitution that we did not change (1805) We lost our voice after the assassination of Jean Jacques Dessalines, from 1806 to 1986, the country has been through many challenges such as coup d'état, US occupation and natural disasters. In 1986, we experienced a Coup D'état which dragged the country to its current state. Several interventions from the United Nations which had a negative outcome.

Parti National de la justice views for Haiti share common interest with the Republic of Congo. The interests are youth education, agriculture promoting regional stability, fostering economic development. Diplomatic relations would provide a framework for formal communication and engagement, allowing collaborative pursuit of these interests and addressing potential challenges.

We believe opening diplomatic channels would facilitate the exchange of information, ideas, and best practices. This would lead to stronger bilateral relations in areas such as trade, culture, military and science. This enhanced cooperation could foster economic growth, cultural understanding, and technological advancement in both nations.

Upon receipt of this letter, I will be contacting your office to follow up on the outcome. Thank you for considering this important matter.

Sincerely,

Queen Esther Erzulie Dantor
